Volltext	The disposal, i.e. the recovery or the disposal including the collection and transport of hazardous waste, is subject to a waste law verification procedure. Waste producers as well as owners, transporters, collectors and disposers of hazardous waste are obliged to do so. Private households and small quantity generators who produce no more than two tonnes of hazardous waste per year are exempt. If the disposer is approved for the privileged process, your certificate becomes valid under federal law without official confirmation. These disposal companies are usually specialist disposal companies and have been given an exemption number for the privileged procedure.
