Volltext	You can apply to the Federal Agency for Agriculture and Food (BLE) for information on the content of the National Infringement File of the Sea Fisheries Act that concerns you. Violations of the provisions of the EU Common Fisheries Policy (CFP) are stored electronically in the National Violations File. Infringements committed by German nationals are entered, as are infringements committed on fishing vessels authorized to fly the German flag. Offenses committed while fishing in the territorial sea or the German Exclusive Economic Zone are also documented. In addition, points for serious infringements are entered in the infringement file. Some federal states in particular have set up support programs for fishing and aquaculture. If you would like to apply for fisheries funding, for example under the European Maritime, Fisheries and Aquaculture Fund (EMFAF), it is generally a prerequisite that you do not
