blind,

- working with electronic readers and note-taking devices for the blind,
- Orientation and mobility, so that you can move and orient yourself independently and safely in public spaces,
- practical life skills so that you can, for example, sign, recognize money, care for your clothes and prepare meals - in short, run your own household.

The duration is 10 to 12 months.

****Basic hearing training****

During basic hearing training, you will learn strategies to communicate as well as possible with hearing people. The aim is for you to find the hearing tactics that will enable you to communicate best with hearing people both at your place of training or workplace and during a vocational qualification.

The course content includes, for example

- Speech training,
- Hearing training for hearing aid or cochlear implant users
- Development and training of listening tactics,
- Use of written interpreters, sign language and technical aids,
- Audiotherapy,
- communication training,
- Training to increase the ability to concentrate and cope with stress

The duration is 3 to 6 months, depending on requirements.

The basic training required due to the disability is funded by the Federal Employment Agency, provided that the Federal Employment Agency is the responsible rehabilitation agency. You are entitled to either
