Teaser	If your glasses, prosthesis or other aid is damaged in an accident at work, the Agricultural Employer's Liability Insurance Association will pay for it.
Volltext	The Agricultural Employer's Liability Insurance Association (LBG) insures you against accidents at work and on the way to work as well as occupational diseases. If a tool you use is damaged or lost in an accident at work, the agricultural employers' liability insurance association will compensate you for the damage. Aids include, for example: • prostheses • orthopedic footwear • support corsets • wheelchairs for the sick • walking sticks • eyeglasses • hearing aids. It doesn't matter what reason you need the assistive device. If your assistive device is damaged, you can request reimbursement for the cost of repairs.

Modul	Sachverhalt
	If the assistive device is destroyed or lost, the Agricultural Workers' Compensation Board will pay for a new assistive device. The new aid must match the previous aid in terms of equipment, function and price. The aim is for you to be able to use your aid again as if the work accident had not happened ("in rem restitution"). The agricultural employers' liability insurance association will compensate for the damage actually incurred. Compensation for luxury versions of aids that serve to ornament and adorn the person affected is not possible.
Erforderliche Unterlagen	• Request • Invoice for the damaged or lost aid • Cost estimate for the new device • Invoice for the new device or repair invoice • Notification of the occupational accident by the employer
Voraussetzungen	The Agricultural Workers' Compensation Board will pay for your damaged or lost assistive device under the following conditions: • There has been an accident at work: • an externally acting on the person, • damaging, • temporary event • during an activity insured under the agricultural accident insurance scheme • Your tool was damaged or lost in the work accident. • You do not necessarily have to have used assistive devices. For example, reading glasses carried in a breast pocket may be damaged in the accident. • However, the assistive device must have been worn on the body as intended. • There must be proof of the accident • For example, accident notification by the employer
Kosten	There are no costs involved.
Verfahrensablauf	The Agricultural Workers' Compensation Board will cover the cost of repairing or replacing your assistive device upon application.
