Teaser	You can use unauthorised plant protection products under certain conditions on plants, seeds or other infested objects if they are intended exclusively for export from Germany. You need a permit for this.
Volltext	Infested objects are plants, plant products, seeds and other objects which may be carriers of harmful organisms. An acute infestation of these objects is not required, they must only be capable of being infested in principle. You may use unauthorized plant protection products on infested objects if they are intended for export from Germany and • different requirements apply in the country of destination or • the plant protection products are approved for this application in the country of destination. You must submit an application for approval to the Federal Office of Consumer Protection and Food Safety (BVL). The BVL assesses the risk of the plant protection
