## Sachverhalt

to a specific quantity or type.

You are not entitled to be granted a license.

In individual cases, the War Weapons Control Act provides for a general permit. This means that in these cases transportation is approved without you having to submit an application beforehand. Please check whether the provisions for a General License apply in your case. The requirements for a general authorization are, for example

- The consignor or consignee is a company based in Germany or the European Union (EU) and is certified on the basis of corresponding legal regulations
- the import is made to the Bundeswehr
- another EU member state has authorized the shipment of the war weapons and they remain within the EU

General licenses do not apply to the transportation of

- anti-personnel mines or
- cluster munitions.

The so-called War Weapons List as an annex to the War Weapons Control Act specifies which military equipment is a war weapon. War weapons include, for example

- Combat aircraft,
- tanks,
- fully automatic small arms or
- warships.

Depending on the area, different authorities are responsible for your request:

- for transportation by companies and with non-military personnel: Federal Ministry of Economics and Climate Protection (BMWK)
- for the Federal Armed Forces or by or on behalf of foreign armed forces: Federal Ministry of Defense (BMVg)
- for the customs administration: Federal Ministry of

## Sachverhalt

partner authorized to represent the company the head of a business or part of a business of the applicant

You can also apply for transportation by forwarding agents or airlines:

- These freight forwarders must have the international permits or licenses required for road transport in Germany under the Road Haulage Act (GüKG). The permit is then issued subject to special conditions. However, in the case of transit of war weapons from abroad through the federal territory to another country, all shipping companies must be named in the permit certificate.
- Airlines must be authorized to operate in the airspace of the Federal Republic of Germany.

## Kosten

Gebühr: 173€

These costs apply to licenses pursuant to Section 3 (3) KrWaffKontrG for transport for the purpose of transit. Further fees are incurred for the application. The Special Fees Ordinance of the Federal Ministry of Economics and Climate Protection (BMWK) is used to calculate the fees. For individually attributable public services within the area of responsibility of the BMWK and the Federal Office of Economics and Export Control (BAFA), the BMWK and BAFA Special Fees Ordinance for War Weapons Control, Export Control and Investment Control - BMWKBGebaiv applies. <https://www.gesetze-im-internet.de/bmwkbgbaiv/BjNR0F80A0023.html>

## Verfahrensablauf

You can apply for a permit to transport war weapons online or by post.

Online application:

- Call up the online application on the federal portal. This will guide you step by step through the necessary information, which you can enter electronically.
- Upload the required documents as a file (in the file formats PDF, JPEG, PNG, maximum 10 megabytes per file) and send the application.
- The licensing authority will check your application and may request further documents or evidence from you.

## Modul

## Sachverhalt

- You will receive a notice of approval or rejection.
- You transport the war weapons without delay and inform us immediately of any unforeseen delays in transportation.

Application by post:

You can submit the application informally.

- Your application must contain the following information in particular. It is not sufficient for the data to be evident only from accompanying documents, consignment notes or other documents. Name and address of the applicant Name and address of the sender Name and address of the recipient Designation of the war weapons War weapons list number: Please enter the classification number using the War Weapons List Number of items or weight: Enter the exact number of items for each type of weapon; for ammunition, enter the caliber Name and address of the carrier: airline, shipping company, railroad, other transportation companies and self-carriage Purpose of transportation Means of transportation: e.g. airplane, ship, railroad, truck Place of dispatch and destination: precise details of which transport companies are transporting the war weapons within Germany and on which routes. For example: transportation from Munich to Frankfurt by company A, from Frankfurt to Hamburg by company B, from Hamburg by shipping company C (direct route) Period of transportation
- For applications for export transportation: A signature of the person responsible for export is required.
- Indicate in your application whether the following persons are German within the meaning of Article 116 of the German Basic Law and have their domicile or habitual residence in Germany: the applicant or their legal representative in the case of legal entities: the authorized representative body or a member of such a body in the case of commercial partnerships: a partner authorized to represent the company the head of a business or part of a business of the applicant
- The licensing authority will check your application and, if necessary, request further documents or evidence from you.

|------------------------------|---|
|                              | <ul style="list-style-type: none"> <li>• You will receive a notice of approval or rejection.</li> <li>• You transport the war weapons without delay and inform the authorities immediately of any unforeseen delays in transportation.</li> </ul>   |
| Bearbeitungsdauer            | 4 - 8 Woche(n)<br>For exports or transit to so-called "third countries", all countries outside the EU, NATO or countries treated as such, you must expect longer processing times.  |
| Frist                        | There is no deadline. However, please submit your application as early as possible. You must complete the transportation of war weapons without delay. It is assumed that transportation within Germany will be completed within 5 working days, even in unfavourable cases. The carrier's dispositions must be based on this. Should any unforeseen delays occur during transportation, you must inform the responsible licensing authority immediately.   |
