Teaser	If you want to offer a medicinal product or if you withdraw it from the market, you must report this.
Volltext	As a pharmaceutical entrepreneur, you are obliged to register and deregister medicinal products with the Federal Institute for Drugs and Medical Devices (BfArM). • Registration means the notification of the placing on the market of a medicinal product for which you have a marketing authorization. Placing on the market means making a product available for sale or use. • Deregistration means the notification of the end of placing on the market. The procedure is also known as the "sunset clause". Even if you no longer produce a medicinal product, you must report this. The marketing authorization loses its validity if • a medicinal product is not placed on the market within 3 years of authorization or • if a medicinal product is no longer on the market for 3 consecutive years, i.e. has been withdrawn from the market.
