renovation and construction measures Measures to improve the ecological balance, in particular the resource- and climate-friendly operation of cultural institutions (sustainability) Digitization measures of cultural institutions (in particular for the purpose of publishing nationally significant collections in the German Digital Library) Measures to increase the public profile of cultural institutions Measures to strengthen cultural participation, accessibility and gender equality Measures for networking and other cooperation projects between cultural institutions

- Projects relating to national minorities and the European Charter for Regional and Minority Languages: Measures to maintain and promote the Low German language, literature and culture with transnational themes or effects Measures to protect and maintain Low German as a regional language Preservation of the language, culture and identity of national minorities.

Not eligible for funding:

- Measures that serve commercial purposes
- City or municipal anniversaries and celebrations
- Production costs for commercial publications, media and recordings
- Measures for which the federal government has no funding authority

Funding is available for cultural institutions (e.g. museums, art galleries and archives) if they are of national importance due to their activities or other key characteristics. They must be able to guarantee proper management and be in a position to provide evidence of the use of the funding as intended.

The federal share amounts to up to 50 percent of the eligible expenditure. You can apply for federal funding of EUR 5,000 or more per measure. Exceptions are possible in justified individual cases.

Co-financing is preferably provided by the federal states. If the purpose of the funding is also in the interest of local authorities or third parties, these

should make an appropriate contribution to the eligible expenditure.

The federal funds are generally only available in the respective financial year. They cannot be carried forward to subsequent years. Exceptions are only possible with budgetary authorization.

You have no claim to the approval of the funding.

Voraussetzungen

The following conditions must be met:

- There is a significant federal interest in your project
that cannot be fulfilled, or not to the extent necessary,
without the requested funding. This means: The
federal government can fund cultural institutions and
projects of national importance, particularly if they are
significant for the federal territory, especially eastern
Germany, beyond the regional and state
responsibilities, or for the protection and maintenance
of a minority language and cannot usually be funded
by one state alone. It must be expected to have the
greatest possible effect or impact or appear to be
particularly advantageous and have an appropriate
cost-benefit ratio.
- A prerequisite for the funding of construction
measures is that the cultural institution uses the
available utilization times or premises as
predominantly as possible for cultural purposes.
- The cultural institution must be based in Germany.

Further requirements:

- You have not yet started the project.
- Their proper management is assured.
- You are able to provide evidence that the funds will
be used for the intended purpose.
- The overall financing of the project is secured.

Kosten

Abgabe: Es fallen keine Kosten an

Verfahrensablauf

You must apply for funding online or in writing to the Federal Government Commissioner for Culture and the Media (BKM).

Apply for funding online:

- Go to the federal portal and fill out the application form electronically. You will need an electronic ID document for the online application, for example the online function of your ID card.
- Upload the required documents - preferably summarized - as a file (in the file formats PDF, DOCX, XLSX, JPEG, PNG, maximum 10 megabytes per file) and send the application.

Further procedural steps:

- The responsible BKM department will check whether the documents are complete and plausible and whether there is a significant federal interest in funding the requested measure. If necessary, the responsible department will contact you with further questions.
- If BKM does not approve your application itself, the responsible BKM department will forward it to the responsible approval authority for the application review and approval procedure, usually the Federal Office of Administration (BVA) or another co-financing funding body.
- Once the application has been reviewed, the approval authority will usually send you an approval or rejection notice by e-mail. The grant notification grants you a binding legal entitlement to the approved funding and regulates the conditions to be observed.
- Once you have completed your project, you must submit a proof of use to the approval authority. Among other things, this consists of a numerical record and a factual report. This provides evidence of the results of your project and the use of the funding.
- Once the project has been completed, you must usually also submit a performance review report. This determines the extent to which you have met the agreed funding objectives and measurement criteria.
