Verfahrensablauf

In order to claim long-term care insurance benefits, an application must be submitted to the long-term care insurance fund; this can also be done by telephone. The care insurance fund is located at the health insurance company. Family members, neighbors or close acquaintances can also submit the application if they are authorized to do so. As soon as the application is submitted to the long-term care insurance fund, it commissions the Medical Service (MD) or other independent experts to assess the need for long-term care. Privately insured persons submit an application to their private insurance company.

Bearbeitungsdauer

The statutory processing period for applications for care services is 25 working days. In the case of a stay in hospital or in an inpatient rehabilitation facility, the assessment by the MD or other independent assessors must be carried out within one week if this is necessary to ensure continued care or if the use of a leave of absence under the Caregiver Leave Act has been announced to the employer of the caregiver or agreed with the employer under the Family Caregiver Leave Act; the shortened assessment period also applies in the case of a stay in a hospice or during outpatient palliative care. If the applicant is in a home environment without receiving palliative care and the use of a leave of absence under the Caregiver Leave Act has been announced to the employer of the caregiver or agreed with the employer under the Family Caregiver Leave Act, an assessment must be carried out within two weeks of receipt of the application.
