In addition to the equivalence of the professional qualification, you must also meet other requirements for the permit to be issued. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification does not originate from the EU, the EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

professional title "masseuse and medical bath attendant" or "masseur and medical bath attendant" to the competent authority. You can submit the application with the documents to the competent authority or send it by post. Do not send any originals. Sometimes you can also send the application electronically. The competent body will inform you.

****Examination of equivalence****

The competent authority will then check whether you meet all the requirements. An important requirement is the equivalence of your professional qualification. The competent body will compare your professional qualification from abroad with the German professional qualification as a masseuse and medical bath attendant. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

****Possible results of the examination****

If your professional qualification is equivalent, your foreign professional qualification will be recognized. The competent authority can confirm the result in writing. You must still meet the other requirements. You will then receive permission to use the professional title "masseuse and medical bath attendant" or "masseur and medical bath attendant".

Are there any significant differences between your professional qualification and the German professional qualification? You may be able to compensate for the differences through your professional experience, other knowledge or skills (lifelong learning). You must provide evidence of your professional experience. Knowledge and skills must be certified by an authority in the country in which you acquired the knowledge or skills.

However, it may be that the significant differences cannot be compensated for by this knowledge. In this

case, your foreign professional qualification will not be recognized. You will then not be allowed to work as a masseuse and medical bath attendant in Germany.

However, the competent authority will tell you the main differences and why you cannot compensate for the main differences with your professional experience.

In most cases, you can take a compensatory measure. This will allow you to compensate for the main differences.

****Compensatory measures****

There are various compensatory measures:

- Adaptation course: The adaptation course lasts a maximum of three years.
- Aptitude test: In the aptitude test, only those areas in which significant differences have been identified are tested. The aptitude test consists of a practical examination.

You can choose between an adaptation period or an aptitude test.

If you successfully complete the compensation measure and meet all other requirements, you will receive permission to use the professional title "masseuse and medical bath attendant" or "masseur and medical bath attendant".

Bearbeitungsdauer

4 Monat(e)

The responsible office will inform you if any documents are missing. If the documents are complete, the procedure will take a maximum of 4 months.

Frist

None. Sometimes documents are still missing from the procedure. The responsible office will then inform you by when you must submit the documents.
