qualification is an important prerequisite for the granting of a state license.

In addition to the equivalence of the professional qualification, you must also meet other requirements for the permit to be issued. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification originates from the EU, the EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

Erforderliche Unterlagen

The responsible office will tell you which documents you need to submit. Important documents are generally

- Proof of identity (identity card or passport)
- Marriage certificate (if your name has changed due to marriage)
- Curriculum vitae
- Proof of your professional qualifications (e.g. certificates, professional certificate)
- Proof of training
- Proof of your relevant professional experience as an emergency paramedic

You usually submit these documents later. The responsible office will inform you when you should submit the documents:

country of origin. The certificate must not be older than 3 months at the time of application.

The certificate must not be older than 3 months at the time of application.

Verfahrensablauf

****Application****

You submit an application to the competent authority for permission to use the professional title "emergency paramedic". You can submit the application with the documents to the competent authority or send it by post. Do not send any originals. Sometimes you can also send the application electronically. The responsible office will inform you.

****Examination of equivalence****

The competent authority will then check whether you meet all the requirements. An important requirement is the equivalence of your professional qualification. The competent body will compare your professional qualification from abroad with the German professional qualification as an emergency paramedic. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

****Possible results of the examination****

If your professional qualification is equivalent, your foreign professional qualification will be recognized. The competent authority can confirm the result in writing. You must still meet the other requirements. You will then receive permission to use the professional title "emergency paramedic".

Are there any significant differences between your professional qualification and the German professional qualification? You may be able to compensate for the differences through your professional experience, other knowledge or skills (lifelong learning). You must provide evidence of your professional experience. Knowledge and skills must be certified by an authority in the country in which you acquired the knowledge or

Modul

Sachverhalt

skills.

However, it may be that the significant differences cannot be compensated for by this knowledge. In this case, your foreign professional qualification will not be recognized. You will then not be allowed to work as an emergency paramedic in Germany.

However, the competent authority will tell you the main differences and why you cannot compensate for the main differences with your professional experience.

In most cases, you can take a compensatory measure. This allows you to compensate for the main differences.

****Compensatory measures****

There are various compensatory measures:

- Adaptation course: The adaptation course lasts a maximum of three years.
- Knowledge examination: The knowledge examination tests your knowledge in certain subjects and areas. The knowledge test comprises an oral and practical part. The practical part of the examination is combined with an interview.

You can choose between an adaptation period or a knowledge test.

If you successfully complete the compensation measure and meet all other requirements, you will receive permission to use the job title "emergency paramedic".

In Hesse, the adaptation period ends with a final interview.
