and cannot be restored with individual measures, such as physiotherapy and occupational therapy.

- Ability to rehabilitate: You are capable of rehabilitation, i.e. They are so resilient that necessary treatments can be carried out.
- Positive rehabilitation prognosis: According to medical assessment, you can probably achieve individual rehabilitation goals.

Kosten

- Insured persons who have reached the age of 18 pay a co-payment: 10 euros per day of treatment in outpatient rehabilitation and 10 euros per calendar day in inpatient rehabilitation.
- The co-payment is calculated for a maximum of 42 calendar days per year. It is paid directly to the rehabilitation institution.
- In the case of follow-up rehabilitation immediately after hospital treatment, you must pay for a maximum of 28 days. Co-payments that you have already made within a calendar year for another rehabilitation or inpatient hospital treatment will be credited
- If you have a low or no income, you can be exempted from the co-payment upon request. Please contact your health insurance company.

Verfahrensablauf

Bearbeitungsdauer

The health insurance fund must decide on applications for rehabilitation services within 2 months.

Frist

In principle, you are only entitled to medical rehabilitation again after 4 years. Exception: Rehabilitation can be approved within the four-year period if it is urgently required for medical reasons.
