Teaser	You can obtain a permit to operate an insemination station or embryo collection or production unit if you meet certain recognition requirements.
Volltext	If you wish to operate an insemination station, embryo collection or production unit for cattle, pigs, sheep, goats or equidae, you require a permit in accordance with the Animal Breeding Act. The permit is issued if • a veterinarian is in charge of the veterinary and technical management of the facility or the performance of the veterinary and technical tasks by a veterinarian who is contractually bound to the insemination station is guaranteed, • the personnel required for proper operation are available, • the facilities required for the collection, treatment, storage and delivery of semen are available and • in the case of an insemination station, the male breeding animals are available. The permit relates to the respective facility with its operating units and to the respective animal species. It

Modul	Sachverhalt
	is generally granted for 10 years. It can be reissued.
Erforderliche Unterlagen	• the name, address and legal form of the operator • the addresses of all parts of the establishment and an indication of their function for the collection, treatment, storage and delivery of the semen or oocytes and embryos • an indication of the material area of activity
Voraussetzungen	• The registered office of your facility is located in Germany. • They can ensure that the animal health requirements necessary to keep livestock healthy are met. • They can ensure that a veterinarian is in charge of the veterinary technical management of the facility or that the veterinary technical requirements are carried out by a contractually bound veterinarian.
Kosten	Issue of the permit • for cattle, pigs and horses 500.00 to 1,600.00 EURO • for sheep and goats 100.00 to 300.00 EURO
Verfahrensablauf	The operator's license must be obtained from the animal breeding authority responsible for the location of the facility. The procedure is as follows: • An informal written application must be submitted with the necessary documents for an operating license • After checking the recognition requirements by means of an on-site inspection, a decision is made to grant the permit • The permit may be issued subject to conditions.
Bearbeitungsdauer	about 6 to 8 weeks
Frist	The permit should be applied for at least eight weeks before the planned start of operation of the facility or before the previous permit expires.
