Teaser	If you want to catch fish using electricity, this is strictly prohibited. For certain purposes, you can apply for an exemption, e.g. to carry out scientific research or to fish spawnically.
Volltext	For certain purposes, the authority may, upon request, allow you to catch fish using electricity. These are: for catching spawning fish, for inventories to preserve evidence or for the preparation of conservation plans, for scientific studies or for sustainable water management that cannot be reached with other fishing gear. Furthermore, various requirements are placed on the electric fan device and its operator.
Erforderliche Unterlagen	• Completed application form • Proof of training course on electric fishing (operating licence) or proof of fish farmer • Approval certificate for the electric gear to be used • List of waters, if applicable • Proof of liability insurance
Voraussetzungen	They must state the purpose of fishing using electricity and provide the necessary documentation. In addition, you may only fish using direct current or suitable pulse direct current. You must not use alternating current as a catch current. You must use the electric fishing gear according to the recognized rules of technology. They must comply with the duties of care arising from the operating instructions and the
