Teaser	The funding is intended to enable the use of modern information and communication technologies in previously underserved areas through a reliable, affordable and high-quality broadband infrastructure.
Volltext	<p>The aim of the funding is to enable the use of modern information and communication technologies in previously underserved areas through a reliable, affordable and high-quality broadband infrastructure.</p> <p>To achieve this goal, broadband projects are funded in districts and municipalities and in white or gray areas, provided that the funding is permissible under state aid law. The aim here is in particular the migration of FTTC infrastructures to FTTB and FTTH infrastructures. FTTC (Fiber To The Curb) involves laying fiber optic cables to the curb or cable junction. FTTB (Fiber To The Building) refers to the laying of optical fibers up to the building. FTTH (Fiber To The Home) refers to the laying of optical fiber to the home.</p> <p>Schools, other educational institutions and business parks in particular should also benefit from the funding.</p> <p>Projects can also be co-financed on the basis of the federal government's directive on "Funding to support the gigabit expansion of telecommunications networks in the Federal Republic of Germany" (Gigabit-RL 2.0).</p>

Modul

Sachverhalt

Finally, the co-laying of empty conduits as part of construction measures for purposes other than broadband expansion is to be subsidized, primarily to exploit synergies. Furthermore, co-laying for the supply of new development areas should also be eligible for funding. Both are subject to market-based expansion and funding through other support programs.

Erforderliche Unterlagen

The required documents depend on the respective project being applied for: The following documents are required for each project:

- Network plans (mapping documents)
- Overview of locations
- Project cost calculation

1. funding of operator models and funding of the economic viability gap

- Proof of missing/inadequate broadband coverage
- Proof of the market exploration procedure
- Proof of the selection procedure
- Copy of the federal application
- Copy of the federal decision

2. funding for the laying of empty conduits

- Proof of missing/insufficient broadband supply
- Proof of the market exploration procedure
- Proof of the selection procedure
- Copy of the federal application
- Copy of the federal notification

3. funding of measures for the co-laying of empty conduits as part of construction measures for purposes other than broadband expansion

- Detailed network planning (FFTH/FFTB)
- Planning documents on the construction measure for purposes other than broadband expansion
- Planning documents on the co-laying of municipal passive broadband infrastructure as part of this construction project
- Declaration that the planned co-laying of empty conduits is in line with demand

Modul	Sachverhalt
	<ul style="list-style-type: none"> • Declaration that co-laying by private companies or other bodies is not ensured
Voraussetzungen	<ul style="list-style-type: none"> • You must not have started implementing the project yet • On the basis of a justified application, an exception may be permitted in individual cases, from which, however, no entitlement to funding can be derived in terms of reason or amount. • In principle, the conclusion of a supply and service contract attributable to the execution of the project is to be regarded as the start of the project if this is directly related to the funded project. • In the case of construction measures, planning, soil investigation and land acquisition are not considered the start of the project unless they are the sole purpose of the funding. • Organizational preparations for publicity measures are not considered to be the start of the project if the funding recipient does not enter into any obligation to carry out the project. • Applications for funding must be submitted to WIBank together with the necessary documents.
Kosten	There are no costs.
Verfahrensablauf	<ul style="list-style-type: none"> • You submit the application online via the customer portal of Wirtschafts- und Infrastrukturbank Hessen. • The application is then checked by the Wirtschafts- und Infra-strukturbank Hessen (WIBank). • If the application is approved, Wirtschafts- und Infra-strukturbank Hessen (WIBank) will issue the funding approval.
Bearbeitungsdauer	No general processing time can be given for this funding program. This depends on several factors over which Wirtschafts- und Infrastrukturbank Hessen has no influence.
Frist	There is no application deadline for this funding program.
