Teaser	If you operate a waste incineration plant or a combustion plant in which you co-incinerate waste, you must have the pollutant emissions determined regularly by individual measurements.
Volltext	<p>If you are the operator of a waste incineration or waste co-incineration plant, you must have the air pollutant emissions determined at regular intervals by means of individual measurements.</p> <p>You must have the measurements carried out by an accredited measuring institute or an expert.</p> <p>In Hesse, the measurements must be carried out by a notified body.</p> <p>You can find these under: https://www.resymesa.de/ReSyMeSa/Allgemein https://www.resymesa.de/ReSyMeSa/Allgemein </p>

Modul	Sachverhalt
Erforderliche Unterlagen	<p>Complete measurement report with details of:</p> <ul style="list-style-type: none"> • Measurement planning • measurement result • Measurement methods used • Operating conditions that are important for assessing the measurement results
Voraussetzungen	<ul style="list-style-type: none"> • You are the operator of a waste incineration or waste co-incineration plant that requires a permit. • You have newly constructed or significantly modified your plant. • You have put your plant into operation.
Kosten	<p>Gebühr: Es fallen keine Kosten an</p> <p>In Hesse, fees for the official inspection of measurement reports are charged on a time basis.</p>
Verfahrensablauf	<ul style="list-style-type: none"> • You contact an accredited measuring institute or an expert, provide the necessary information for the measurement and arrange a measurement date. • The measuring institute or expert then confirms the measurement plan for you and reports it to the authority responsible for you together with the measurement date. • On the measurement date, the measuring institute or expert determines the emission values and compares them with the legally prescribed emission limit values for your system. • Once the measurement has been completed, you will receive a measurement report from the measuring institute or expert. • You must check the measurement report and send it together with the measurement planning, the result of each individual measurement, the measurement method used and the operating conditions during the measurement to the immission control authority responsible for you. • You will receive confirmation from the authority that your measurement report has been received.
Bearbeitungsdauer	There is no statutory processing time.
Frist	The measurement report must be submitted to the responsible authority together with all documents 8

Modul	Sachverhalt
	<p>weeks after the measurements. If your system has been newly installed or significantly modified, you must have the measurements carried out every 2 months in the first year after commissioning and then regularly every 6 months thereafter.</p>
