Teaser	
Volltext	<p>Market activity in the slaughter cattle sector is subject to strong fluctuations due to the constant change in supply and demand. In addition, there are a large number of suppliers and buyers, which makes it very difficult to gain an overview of the market. In order to ensure market transparency nevertheless, there is the instrument of official price quotation. The Giessen Regional Council uses the price reports submitted by the slaughterhouses to determine the price ranges for the respective categories and trade classes for the previous week from Monday to Sunday. These are then published as an official price quotation together with the average weighted payout price calculated for the respective trade class.</p> <p>Reports are made for the previous week:</p> <ul style="list-style-type: none"> <li>• The total quantity slaughtered by number of heads and carcass weight and</li> <li>• the weighted averages of the payout prices per kilogram (this is the price to be paid to the supplier free on arrival at the slaughterhouse, excluding VAT).</li> </ul> <p>in the following subdivision:</p> <ul style="list-style-type: none"> <li>• for cattle according to the legal categories and trade classes for cattle carcasses,</li> <li>• for pigs according to the legal trade categories for pig carcasses and</li> <li>• for sheep according to the legal categories for sheep carcasses.</li> </ul>

## Modul

## Sachverhalt

The reporting obligation applies in principle to carcasses of cattle, pigs and sheep.

Exception: businesses that slaughter no more than an average of 200 pigs or 75 cattle or 75 sheep per week. The average weekly number of carcasses is calculated on the basis of the quantity slaughtered in the previous calendar year.
