Teaser	Stability certificates for structural systems are prepared by persons with a professionally qualifying university degree in architecture, structural engineering or civil engineering with at least three years of professional experience in structural design who are registered as a member of a chamber of architects in a list to be maintained by the Chamber of Architects of North Rhine-Westphalia or as a member of a chamber of engineers in a list to be maintained by the Chamber of Engineers of North Rhine-Westphalia (qualified structural engineer).
Volltext	In accordance with Section 54 (4) BauO NRW 2018, a qualified structural engineer is a person who is registered as a member of a chamber of architects or chamber of engineers in the list of qualified structural engineers maintained by the NRW Chamber of Architects or the NRW Chamber of Engineers. Persons who can prove that they have a professionally qualifying university degree in architecture, structural engineering or civil engineering as well as at least three years of professional experience in structural planning are registered. Furthermore, a decree of the state of North Rhine-Westphalia regulates how proof of three years of professional experience is to be provided.

Modul

Sachverhalt

Persons who are already registered on such a list in the field of structural stability/structural planning in another federal state and are also members of a chamber of engineers or chamber of architects do not require additional registration in NRW.

Since 01.01.2019, the Chamber of Engineers-Bau NRW and the Chamber of Architects NRW have been issuing corresponding certificates for NRW for authorized members of the respective other state chambers.

Erforderliche Unterlagen

- Application form
- Proof of membership of a chamber of engineers or architects
- Proof of successfully completed studies in the field of architecture, structural engineering or civil engineering
- Proof of at least three years of professional experience in structural design
- Proof of at least three years of professional experience in structural design by means of a list of at least three and a maximum of six projects demonstrating practical experience in structural design within the last six years prior to the submission of the application
- Proof of liability insurance

Voraussetzungen

You are registered if you

1. are a member of a chamber of engineers or architects,
2. have a professionally qualifying university degree in architecture, structural engineering or civil engineering,
3. have at least three years of professional experience in structural engineering and
4. have sufficient knowledge of the German language, which must be demonstrated in an appropriate manner if required.
