Modul

Sachverhalt

- if you fulfill the material requirements for entry in the corresponding list.

State-recognized experts for earthworks and foundation engineering support the state-recognized experts for testing stability in the field of soil mechanics and earthworks and foundation engineering by

- the subsoil deformations and their effect on structures (soil-structure interaction),
- the safety of the foundations of structures
- the assumptions made and
- the soil mechanical parameters

and certify the completeness and correctness of the information on the subsoil and its load-bearing capacity to the state-approved expert for testing stability.

As an external expert, you must notify the first-time provision of services in advance or apply for a certificate of compliance with the material requirements.

Erforderliche Unterlagen

Notification of the first-time provision of the service:
