Teaser	Here you will find information on the assumption of school travel costs in justified exceptional cases. The maximum amount limit of 100 euros does not apply to severely disabled pupils or pupils with special educational needs.
Volltext	This regulation applies to pupils who are resident in North Rhine-Westphalia. It applies to pupils at general education schools, special schools, schools for the sick or full-time vocational colleges. Under certain conditions, the school authority will reimburse the most cost-effective form of transportation to the nearest school and back. As a rule, transportation by public transport is considered the most cost-effective form of transportation. Travel costs are reimbursed regardless of the length of the journey to school if it is particularly dangerous or unsuitable for pupils due to local conditions. In justified exceptional cases, school transportation costs may also be covered:
