Teaser	For the construction and operation of warehouses in which explosive substances are to be stored or for significant changes to these warehouses, you require a permit in accordance with the Explosives Act.
Volltext	Explosive substances have a great potential for danger. The aim of the Explosives Act (SprengG) is to protect people and property from these dangers. Against this background, you generally require a storage permit in accordance with the Explosives Act for the storage of explosive substances. Significant changes to an approved storage facility or significant changes to its operation also require a permit. If you store a net explosive mass of 10 tons or more, you need a permit in accordance with § 4 of the Federal Immission Control Act (BImSchG). The permit according to BImSchG is then also valid as a permit according to the Explosives Act. A storage permit may not be required if the "small quantities" specified in the Second Ordinance to the Explosives Act (2. SprengV) are not exceeded.
Erforderliche Unterlagen	Informal • Details of the company, address and contact person at the company • Field map with marked storage site • Information on type and quantity of explosive substances (BAM group, storage group, compatibility group) • Construction description, construction documents, construction method • if applicable, copy of the permit according to §7 or § 27 SprengG for handling explosive substances • If applicable, type approval • if applicable, concept for the prevention of incidents with safety management • If applicable, fire protection concept in accordance with industrial construction guidelines with floor plan and location of safety equipment (such as extinguishing equipment)

Modul	Sachverhalt
	• If applicable, expert opinion at the request of the authorities
Voraussetzungen	As an operator, you must be in possession of a valid permit for the acquisition and handling of explosive substances
Kosten	Costs are charged by each state according to its own fee ordinance.
Verfahrensablauf	• As this is a complex procedure, it is recommended to contact the responsible person before submitting the application. • Submitting an application and attachments to the responsible authority. • Checking the application for completeness and plausibility and, if necessary, requesting missing documents. • As a rule, an on-site appointment is arranged. • On-site inspection and, if necessary, request for additional documents. • Notification of the decision and request for payment. • The number of application records is to be agreed with the clerk.
Bearbeitungsdauer	2 - 3 Stunde(n) The processing time starts after the application documents are complete.
Frist	There are no deadlines to be observed.
weiterführende Informationen	
Hinweise	
Rechtsbehelf	The legal remedy depends on the respective state law regulation.
Kurztext	• Application for storage permit for explosive substances • § 17 Explosives law (SprengG) • Permit for storage of explosives • Change explosives storage • Responsibility: Federal state dependent
