| Teaser                     | Rehabilitation can help you avoid the permanent onset of a disability or need for long-term care, or help you cope better with the consequences.   |
| Volltext                   | <p>Rehabilitation can help you to avoid the permanent onset of a disability or need for care or to cope better with the consequences.</p> <p>In order for your health insurance fund to cover the costs of a rehabilitation measure, you must have statutory health insurance. Your health insurance fund will first check whether another service provider is primarily responsible.</p> <p>In the case of employed persons, for example, the pension insurance will finance necessary rehabilitation services. Rehabilitation benefits for pensioners, mothers or fathers with children, and people in need of long-term care are usually the responsibility of the statutory health insurance.</p> <p>You must apply for rehabilitation benefits. Usually, the application is made by the social service together with you after an acute treatment in hospital (follow-up rehabilitation).</p> <p>Your attending doctors can also suggest medical rehabilitation and issue a medical prescription for the application.</p> |
| Erforderliche Unterlagen   | <ul style="list-style-type: none"> <li>• You must submit an informal application to your health insurance fund.</li> <li>• Your health insurance fund will check whether the requirements for medical rehabilitation are met</li> </ul>  |
| Voraussetzungen            | <ul style="list-style-type: none"> <li>• Need for rehabilitation: Your performance is impaired and cannot be restored with individual measures such as physiotherapy and occupational therapy.</li> <li>• Ability to rehabilitate: You are capable of rehabilitation, i.e. you are sufficiently resilient that</li> </ul>  |

| Rechtsbehelf                 | You can appeal against the decision of the health insurance fund. If the appeal is not upheld, you can file a lawsuit with the competent social court.   |
| Kurztext                     | <p>The following requirements must be met for a medical rehabilitation measure to be approved:</p> <ul style="list-style-type: none"> <li>• Need for rehabilitation: performance is impaired and cannot be restored with individual measures, such as</li> </ul>   |

## Modul

## Sachverhalt

physiotherapy and occupational therapy.

- Rehabilitation capability: the patient is capable of rehabilitation, i.e. he or she is sufficiently resilient to be able to undergo the necessary treatment.
- Positive rehabilitation prognosis: Patient can probably achieve individual rehabilitation goals according to medical assessment.
- The health insurance fund first checks whether another service provider is primarily responsible. In the case of employed persons, for example, the pension insurance finances necessary rehabilitation services. As a rule, rehabilitation services for pensioners, mothers or fathers with children and people in need of long-term care are the responsibility of the statutory health insurance.

## Ansprechpunkt

## Zuständige Stelle

The responsibility lies with the respective health insurance company.
