Certain vehicles exempt from vehicle tax have license plates with green lettering on a white background. Vehicles belonging to non-profit organizations (e.g. German Red Cross), agricultural and forestry vehicles and certain trailers can be issued with such plates. As a rule, green license plates are allocated when vehicles are registered. There are vehicles that are automatically exempt from vehicle tax based on the description of the vehicle class. These include trailers for sporting purposes, trailers for work machines, self-propelled work machines, etc. in accordance with § 3 Para. 2 of the Vehicle Registration Ordinance (FZV). In contrast to these vehicles, other vehicles receive green license plates due to their special use. These include vehicles used for agricultural or forestry purposes, vehicles for winter road clearance services, vehicles belonging to non-profit organizations such as the German Red Cross or ASB, etc. in accordance with § 3 of the Motor Vehicle Tax Act (KraftStG). Please note: Not all vehicles that are exempt from vehicle tax receive green license plates. Light motorcycles, for example, are tax-exempt but still receive a black license plate. Likewise, severely disabled people with the "H", "BI" or "aG" mark on their severely disabled person's pass continue to be exempt from vehicle tax.
