Teaser	<p>Would you like to work as an occupational therapist in Germany? Then you need a state permit.</p> <p>To obtain state permission, you can have your foreign professional qualification recognized.</p>
Volltext	<p>The profession of occupational therapist is regulated in Germany. This means that in order for you to be able to work as an occupational therapist in Germany, you need a state permit. With the permission, you may use the professional title "occupational therapist" and work in the profession.</p> <p>Even with a professional qualification from the European Union (EU), the European Economic Area (EEA) or Switzerland, you can obtain state permission from the competent authority in Germany.</p> <p>In order to obtain the permit, you must have your foreign professional qualification recognised.</p> <p>In the recognition procedure, the competent authority compares your professional qualification from abroad with the German professional qualification and checks its equivalence. The equivalence of the professional</p>

Modul

Sachverhalt

qualification is an important prerequisite for the granting of the state permit.

In addition to the equivalence of the professional qualification, you must also meet other requirements for the granting of the permit. Further requirements are e.B. sufficient German language skills and health suitability.

If your professional qualification does not originate from the EU, EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

Erforderliche Unterlagen

The competent authority will tell you which documents you need to submit. Important documents are generally:

- Proof of identity (identity card or passport)
- Marriage certificate (if your name has changed due to marriage)
- Curriculum vitae
- Proof of your professional qualification (e.B. certificates, professional certificate)
- Evidence of formal qualifications
- Proof of your relevant professional experience as an occupational therapist
- Proof of further relevant knowledge for working as an occupational therapist
- You do not live or work in Germany yet? Then you may have to prove that you want to work in the profession in Germany. Proofs are e.B. applications for a job, invitations to interviews, personal declaration

You usually hand in these documents later. The competent authority will inform you when you should hand in the documents:

- Proof of your personal suitability: Extract from criminal record or certificate of good conduct from your country of origin. The proof may not be more

Modul

Sachverhalt

than 3 months old when the application is submitted.

- Proof of your fitness for health: Medical certificate. The proof may not be more than 3 months old when the application is submitted.
- Proof of your German language skills: Language certificate

The competent authority will inform you which documents you must submit as a simple copy, as a certified copy or in the original.

Voraussetzungen

- You have a professional qualification as an occupational therapist from the EU, the EEA or Switzerland.
- You want to work as an occupational therapist in Germany.
- Personal suitability: You are reliable for working as an occupational therapist and have no criminal record.
- Health suitability: You can work psychologically and physically as an occupational therapist.
- You have German language skills at the required language level. This is usually the language level B2 according to the Common European Framework of Reference for Languages (CEFR).

Kosten

The competent authority will inform you about the costs. The costs generally depend on the effort required for processing.

In addition, additional costs may arise (e.B. for translations, certifications or compensatory measures). These costs vary from person to person.

Verfahrensablauf

****Application****

You submit an application for permission to use the professional title "occupational therapist" to the competent authority. You can submit the application with the documents to the competent authority or send it by post. Do not send originals. Sometimes you can also send the application electronically. The competent authority will inform you.

Modul

Sachverhalt

****Equivalence test****

The competent authority will then check whether you meet all the requirements. An important prerequisite is the equivalence of your professional qualification. The competent authority compares your professional qualification from abroad with the German professional qualification as an occupational therapist. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

****Possible results of the test****

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent authority can confirm the result in writing. You still have to meet the other requirements. Then you will receive permission to use the professional title "occupational therapist" or "occupational therapist".

Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You must prove your professional experience. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

However, it may be that the essential differences cannot be compensated by this knowledge. Then your foreign professional qualification will not be recognised. You are then not allowed to work as an occupational therapist in Germany.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional experience.

Modul

Sachverhalt

In most cases, you can take a compensatory measure. This allows you to compensate for the essential differences.

****Compensatory measures****

There are various compensatory measures:

- Adaptation period: The adaptation period lasts a maximum of three years.
- Aptitude test: In the aptitude test, only those areas in which significant differences have been identified are examined. The aptitude test consists of a practical examination.

You can choose between an adaptation course or an aptitude test.

If you successfully complete the compensatory measure and meet all other requirements, you will receive permission to use the professional title "occupational therapist".

Bearbeitungsdauer

4 Monat(e)

The competent authority will inform you if documents are missing. If the documents are complete, the procedure will take a maximum of 4 months.

Frist

None. Sometimes documents are still missing in the procedure. The competent authority will then inform you by when you have to submit the documents.

weiterführende Informationen

Hinweise

****Freedom to provide services****

You only want to offer services in Germany sometimes and for a short time? Then you usually do not need the state permission. You must meet these requirements:

- You must be established in another EU, EEA or Swiss country.

Modul

Sachverhalt

- You must prove your professional qualification.
- You must report your activity in writing to the competent authority.

The competent authority will inform you whether you are allowed to provide services or whether you have to take an aptitude test.

****Equivalence notice****

In the permit procedure, the examination of equivalence (recognition procedure) is also carried out. You can request a separate decision for the result of the examination.

****Procedure for ethnic German repatriates****

As a ethnic German repatriate, you can either go through the recognition procedure according to the laws mentioned here or according to the Federal Displaced Persons Act. You can decide for yourself. The responsible body will advise you on which procedure is right for you.

Rechtsbehelf

You can take legal action against the decision of the competent authority within a certain period of time (e.B. lodge an objection). The decision is then reviewed. Details can be found in the appeal instruction at the end of your decision. We recommend that you first talk to the competent authority before taking legal action against the decision.

Kurztext

- Occupational therapist with training from EU/EEA/Switzerland, professional qualification recognition
 - To work as an occupational therapist, you need a state permit in Germany.
 - With permission, you can officially call yourself an "occupational therapist" and work in the profession.
