Volltext	<p>If your permission to temporarily take weapons or ammunition from Germany abroad, to take them temporarily to Germany or to take them through Germany is no longer valid, you must have it extended. You can have your permit extended several times by 1 year at a time.</p> <p>In order to be allowed to take weapons with you to Germany, you must prove your need, your reliability in terms of weapons law, your personal suitability and expertise. If you are a citizen of an EU Member State as well as Switzerland, Liechtenstein, Norway and Iceland, the European Firearms Pass is sufficient as proof. As a citizen of a third country, you can provide proof by means of meaningful official documents from your home country with German translation. If, as a citizen of a third country, you are unable to provide any information on weapons and ammunition when submitting your application, you must do so at the latest when entering the country.</p> <p>You must always state the reason why you want to take weapons and ammunition with you to Germany temporarily, for example an invitation to hunting, to a shooting sports competition or to a traditional event.</p>

Sachverhalt

For example, if you are submitting the application for a shooting sports team, you can enter the names of all participants on a separate sheet and enclose them with the application. Permission will then be granted to all applicants together.

You do not need a permit if you are from an EU member state as well as from Switzerland, Liechtenstein and Iceland.

You do not need a European firearms pass if you, as a sport shooter or traditional shooter, want to take certain weapons with you from Austria to Bavaria or vice versa.

You also do not need permission to bring weapons and ammunition into Germany if you

- take weapons and ammunition for which you have permission to acquire and possess (weapon possession card - WBK),
- carry signal weapons and their associated ammunition on board ships for safety reasons, or
- carry weapons and ammunition on board a ship or aircraft that are constantly kept under lock and key in Germany. These weapons and ammunition must be reported immediately to the competent authority and must be re-exported from Germany within one month at the latest.
