Teaser	If you also want to fly over geographical areas during operations, you may need to apply for a permit.
Volltext	Drones are unmanned aerial vehicles which, together with the remote control, form an "Unmanned Aircraft System" (UAS). They offer you a wide range of possible applications, for example in the field of photography and videography, for rescuing fawns or surveying areas. If you fly over an area with a drone, you may need permission to do so. Such areas are called "geographical UAS areas". They are defined by the aviation authority and regulate where drone flights are permitted, restricted or completely prohibited. This is intended to avoid risks to • public safety, • the protection of privacy and personal data or • the environment. Throughout Germany, there are certain areas that you are not allowed to fly over with your drone without further ado. These include, for example • Freeways and federal highways

Modul	Sachverhalt
	• Rivers and canals that belong to the federal government • Private residential properties Do you want to fly over such an area with your drone, but cannot obtain permission from the operator or the responsible authority (for example near airports or over residential properties and at an altitude of less than 100 meters)? You can apply for permission to do so if you can prove a legitimate interest. There is a general and an individual permit.
Erforderliche Unterlagen	• Application to fly into a geographical UAS area • Proof of air liability insurance • if applicable: Proof of competence A1/A3 or proof of competence A2 (remote pilot certificate A2) site plan Written consent of the property owner Order from affected authorities, agencies or operators Approval from German air traffic control Expert opinion on the suitability of the site and the airspace concerned Further assessments and expert opinions, for example in the area of noise and nature conservation
Voraussetzungen	• sufficient air liability insurance • required proof of competence • the intended operation and use of airspace does not lead to: a threat to aviation safety, or on a threat to public security and order, in particular to violations of data protection and nature and environmental protection
Kosten	Verwaltungsgebühr: 200€ EUR 200 for a general permit to enter geographical areas. Verwaltungsgebühr: 100€ EUR 100 for an individual permit to enter a geographical area. https://www.gesetze-im-internet.de/luftkostv/anlage.ht ml
Verfahrensablauf	
Bearbeitungsdauer	
Frist	There is no deadline.
