Teaser	If you wish to construct and operate or modify an installation that does not require a permit and is an operating area or part of an operating area and this could have an impact relevant to incidents, you must apply for a permit.
Volltext	<p>A permit must be applied for from the competent authority before construction and operation or before modifications are made to an installation requiring a permit that belongs to the operating area or is part of an operating area if the operation or modifications may have an impact relevant to major accidents.</p> <p>If, when examining your previous notification of an incident-relevant construction or modification, the authority comes to the decision that your project has an impact under incident law and therefore requires a permit, you must also apply to the competent authority for a permit for this incident-relevant construction and operation or incident-relevant modification.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Required drawings, plans, expert opinions

Modul

Sachverhalt

- explanations and
- further documents may need to be requested from the competent authority.

Voraussetzungen

- Approval is granted if it is ensured that the construction and operation or modification of the installation not requiring approval that is relevant to the incident
- does not cause any harmful effects on the environment that are avoidable according to the state of the art,
 - harmful effects on the environment that are unavoidable according to the state of the art are kept to a minimum, and
 - the waste generated during operation of the plant is disposed of properly.
 - Furthermore, other public law regulations and occupational health and safety concerns must not conflict with the project.

Kosten

Verfahrensablauf

- If, when examining your application for an incident-relevant construction and operation or incident-relevant modification, the authority comes to the decision that your project requires a permit, you will be informed of this in writing.
- You must then submit an application for approval. This can be done in writing or electronically. The application must be accompanied by the documents required for examination.
- Alternatively, you can submit an application for accident-relevant construction and operation or accident-relevant modification without prior notification. This is particularly recommended in cases where you already know from other information that your project requires approval.
- If the application is complete, it will be made public together with the documents and published for a period of one month. Within this one-month period, persons or associations whose interests are affected by the project can submit their objections to the competent authority.
- As part of the permit review, the competent authority
