Teaser	If you wish to set up or operate a gas filling system or make certain changes to it, you must apply for a permit from the competent authority.
Volltext	Gas filling systems, including storage and storage tanks, are used to fill land, water and air vehicles with flammable gases, which are then used as propellant or fuel. Gas filling systems are systems that require monitoring. You require a permit from the competent authority if you: • wish to set up and operate a gas filling system • wish to make changes to the design or mode of operation that affect safety Permission can be granted subject to the following restrictions: • limited, • limited in time, • subject to conditions or • with conditions. If the installation requiring a permit is part of an installation requiring a permit, no separate permit will

Modul	Sachverhalt
	be issued. The authorization includes the permit.
Erforderliche Unterlagen	Informal application with the following details: • Surname, first name, company name • Address of the applicant • Contact information (e-mail, telephone, fax) • Type of permit Construction and operation Modification and operation or Partial permit • Specification of the operating site Documents required to assess the installation: • Subject of the application • Description of the installation • Description of the plant technology and interaction with other plants • Piping and instrumentation flow diagram (P&I flow diagram) • Safety data sheets • Description of mode of operation • Permanently manned position for operation without supervision • Overview plan • Site plan • Floor plan/technical plan • Ex-zone plan • Explosion protection concept • Information on fire protection • Calculation of production costs • Other installations • Test report from an approved inspection body (ZÜS) The test report must confirm that the system can be operated safely if the specified measures are complied with.
Voraussetzungen	• The facility for which you are applying for a permit must be a facility requiring a permit. • You must construct and operate filling stations in accordance with the state of the art. • Your documentation must be complete, plausible and meaningful. • The test report from the approved inspection body (ZÜS) must confirm that the system applied for can be operated safely if the measures specified in the

Modul	Sachverhalt
	documents, including the tests, are complied with.
Kosten	
Verfahrensablauf	• Submit the application for approval of the system requiring monitoring with the required documents including the test report from the approved monitoring body (ZÜS) to the responsible authority. • If a permit is required in accordance with the Federal Immission Control Act, you will receive the application documents back, as a permit in accordance with the Industrial Safety Ordinance will then also be checked as part of the necessary permit in accordance with the Federal Immission Control Act. • The competent authority will make its decision after examination and inform you.
Bearbeitungsdauer	0 - 3 Monat(e) The processing time applies from receipt of the complete application documents. An extension of the processing period is possible in justified cases.
Frist	The permit expires if: • you have not commenced construction of the installation within two years of the permit being issued, • you have interrupted the construction of the installation for two years or longer or • you have not operated the installation for a period of three years. You can apply to the licensing authority for an extension of the deadlines for important reasons.
weiterführende Informationen	The publication (LV 49) contains a list of the required application documents for gas filling systems in Annex 3. https://lasi-info.com/publikationen/lasi-veroeffentlichungen?tx_ikanoslasipublications_publications%5Baction%5D=show&tx_ikanoslasipublications_publications%5Bcontroller%5D=Publication&tx_ikanoslasipublications_publications%5Bpublication%5D=35&cHash=34973bb5610d51183683f3d0f4f2bcb3 https://lasi-info.com/publikationen/lasi-veroeffentlichungen?tx_ikanoslasipublications_publications%5Baction%5D=show&tx_ikanoslasipublications_publications%5Bcontroller%5D=Publication&tx_ikanoslasipublications_publications%5Bpublication%5D=35&cHash=34973bb5610d51183683f3d0f4f2bcb3
