Teaser	If you wish to work as an expert or surveyor in the field of high-pressure gas pipelines, you must be recognized as an expert by the competent authority.
Volltext	Experts inspect high-pressure gas pipelines and their associated facilities that serve the public supply before construction to ensure that the planned pipeline/facility meets the quality requirements of the High-Pressure Gas Pipeline Ordinance. Furthermore
	High-pressure gas pipelines must be tested for leaks, strength and the presence of the necessary safety equipment by an expert before being put into operation.
	A further inspection is then usually carried out within one year of commissioning.
	If you wish to work as an expert in the field of high-pressure gas pipelines and
	belong to an accredited inspection body or
	are certified by an accredited certification body,

## Modul

## **Sachverhalt**

you will also require recognition from the competent body.

You can be recognized as an expert for high-pressure gas pipelines serving the public supply if you are an expert

- a technical inspection organization,
- a materials testing institute under public law or
- the German Association of Gas and Water Experts (DVGW).

However, as a DVGW expert or DVGW expert, you may only carry out tests on compressor, control and measuring systems.

## Erforderliche Unterlagen

- Certificate of successful completion of studies in a technical or scientific field at a university, college or university of applied sciences
  - For proof of personal reliability:
- If you are resident in Germany, you will generally need a certificate of good conduct for submission to an authority (document type O)
- If you are resident abroad, you will need documents from your home country to prove that you are personally reliable enough to perform the desired service.
- Certificate as proof of training as an expert in accordance with DVGW worksheet G 100 or proof of membership of an accredited inspection body (e.g. TÜV, MPA or ZÜS) for inspecting the technical safety of high-pressure gas pipelines in accordance with the High-Pressure Gas Pipeline Ordinance (Gashochdruckleitungsverordnung)
- Declaration by the employer(s) that the expert to be recognized is in active employment and that he/she is free from instructions from his/her superior or employer in the performance of his/her inspection activities,

Modul	Sachverhalt
	<ul> <li>valid, personal or monitoring organization-related proof of liability insurance that protects the expert against possible claims for damages arising from their expert activities (personal injury, property damage and financial loss)</li> <li>Proof of regular participation in further training and subject-related exchange of experience</li> </ul>
	When checking personal reliability, the approving authority may, in individual cases, request further documents in addition to the documents listed, which are suitable for making a statement about the personal reliability of the applicant.
Voraussetzungen	Prerequisites for recognition are:
	<ul> <li>They must have the necessary expertise, reliability (personal qualities, skills, behavior) and independence.</li> <li>They must</li> </ul>
	<ul> <li>carry out their work regularly,</li> <li>undergo regular further training in line with the state of the art and</li> <li>regularly take part in an exchange of experience</li> </ul>
Kosten	Depends on the respective administrative fee schedule of the state or on the fee statutes of the authorities responsible under state law
Verfahrensablauf	<ul> <li>You do not need to fill in an application form</li> <li>However, you should give reasons for your request in writing and attach the necessary documents</li> </ul>
Bearbeitungsdauer	7 - 30 Tag(e)
Frist	none
