| Volltext | <p>As an employer, you must submit social insurance declarations for your employees who are subject to social insurance contributions. To do this, you need a company number.</p> <p>The company number serves as an identification feature for the individual employment company. A company number is only required when you hire the first employee. It does not matter whether you hire a 450-euro employee, an employee subject to social insurance contributions or a trainee. As a rule, the Federal Employment Agency is responsible for assigning the company number. Under certain circumstances, however, you must contact a different person:</p> <ul style="list-style-type: none"> • You are a private household. You have never received an establishment number and employ workers who perform activities in a private household exclusively on a 450-euro basis? Then please contact the Minijob-Zentrale. • Are you a miners' company (extraction of minerals), do you employ staff in a miners' company or do you employ workers who carry out miners' work in mines or who are used for rehabilitation work in opencast mines? Then please contact the German Pension Insurance Knappschaft-Bahn-See. |
