member-organised electoral associations

Parties and member-organised voters' associations elect their candidates in a members' or representatives' meeting. The nominations must be signed by three members of the executive committee responsible for the electoral area or the body otherwise authorised to represent the party - including the chairperson or their deputy.

Election proposals from non-member organised voters' associations

Candidates from non-member voters' associations must have been elected at a meeting by a majority of the votes cast by those present who are entitled to vote. The election proposals must be signed by three eligible voters at this meeting.

Representatives

A representative and a deputy representative should be named in each election proposal. Unless otherwise stipulated in the Municipal Elections Act and the Municipal Election Regulations, only authorised representatives are entitled to make binding declarations on the election proposal and to receive declarations from electoral bodies.

Supporting Signatures

In principle, every election proposal must be provided with the appropriate supporting signatures. The following do not require supporting signatures

- the election proposal of a party or member voters' association that is elected on the basis of its own election proposal in the Saxon state parliament or has been represented in the respective body (city / municipal council or local council / district advisory council or in the district council) since the last election or
- the election proposal of a non-member voters' association whose elected representatives in the respective body (city council / municipal council or local

council / district advisory council or in the district council) have signed the proposal by a majority.

Note: Parties or voter associations and their mandates that have ceased to exist since the last election due to incorporation or municipal mergers may also be counted.

Supporters must be eligible to vote at the time of signing, i.e. be citizens of the respective municipality, city, town, city district or administrative district. Anyone who is unable to visit the city/municipal administration due to illness or a physical impairment can alternatively submit a corresponding declaration to an authorised representative of the respective office.

Please note! An authorised voter may not support several proposals for the same election. Furthermore, signatories may not be on the nomination in question themselves.
