Application for state recognition of professional qualifications in the fields of social work and curative education (state recognition of German qualifications)

Professional practice in social work fields is partly linked to state recognition as a social worker*, social pedagogue, childhood pedagogue or curative pedagogue. Graduates of a state or state-recognised university of applied sciences in Saxony or the Berufsakademie Sachsen / Duale Hochschule Sachsen with a diploma or bachelor's degree in the fields of social work (e.g. social work, social work, social pedagogy) or curative education receive state recognition upon application if the requirements are met.

State recognition entitles the holder to use the corresponding professional title:

- state-recognised social worker
- state-recognised social pedagogue
- state-recognised childhood educator or state-recognised childhood educator

State recognition granted in another federal state is equivalent to state recognition under Saxon law.
