## Sachverhalt

basis") upon application.

**\*\*Important!\*\*** Recognition is granted once by a federal state. It is only necessary to notify the competent mining authority of the acceptance of the work for each mining operation.

#### Single point of contact

For this procedure you can use the services of the Single Point of Contact. He or she will accompany you through the procedure, take care of the correspondence with all the authorities responsible for your matter and will be at your side as a competent advisor.

## Erforderliche Unterlagen

- Curriculum vitae
- Proof of completion of the required training (e.g. certificates or diplomas in the original or as certified copies)
- Evidence of the type and duration of the subject-specific professional activity following the professional qualification

## Voraussetzungen

The applicant must

- be physically fit and there must be no facts that make him/her appear unreliable for the activity,
- demonstrate the required knowledge and skills for the activity.

The applicant can meet these requirements by providing evidence of at least three years of specialist professional activity in the mining sector for which he or she wishes to apply for recognition. This includes

- a final examination recognised in the European Union, a contracting state of the European Economic Area or Switzerland in a subject related to mine surveying or surveying technology at a university, technical university, technical college or technical college,
- a professional qualification recognised as equivalent
