main branch. A completely independent company name would be inadmissible. Usually an addition is made to the name of the main branch (example: "Musterhandel, Zweigniederlassung Dresden").

The application to the commercial register is made through a notary public at the registry court in whose district the branch office is established:

- in the case of partnerships (general partnership / OHG and limited partnership / KG) by the partners authorised to represent or by the authorised signatory with power of attorney
- in the case of a limited liability company (GmbH) by the managing directors (the authorised signatory is expressly excluded)
- in the case of a public limited company (AG), by the members of the executive board who are authorised to represent the company

For the branch office, a trade must also be registered with the trade office of the respective city or municipality.
