International birth certificate

A birth certificate can also be issued on a multilingual form, particularly for use abroad (international birth certificate in accordance with the Convention of 8 September 1976 on the issue of multilingual extracts from civil status records).

You can use the international birth certificate abroad without a translation. It is issued by the registry office that notarised your birth.

Parentage certificate

Compared to a birth certificate, a certified printout from the register of births (formerly the register of

	<p>births) shows all the data entered by the registry office in connection with the birth. The certified printout from the register thus replaces the former certificate of parentage (abolished on 1 January 2009).</p> <p>Special local features: none</p>
