decide whether the service is necessary.

Access to the measures takes place through an assignment or within the framework of an [activation and placement voucher](<https://www.arbeitsagentur.de/arbeitslos-arbeit-finden/aktivierungs-vermittlungsgutschein-avgs>).

Scope of support

Reasonable costs for participation will be covered so far this is necessary for professional integration. If necessary, you can receive, for example, travel costs to the programme or childcare costs that are additionally incurred due to participation in the programme. The support can also be limited to the continued payment of unemployment benefit.

Please discuss which necessary costs can be reimbursed in individual cases with your personal contact at the employment agency.

Online application

Customers can be activated for the eService via VerBIS by their responsible placement and counselling specialist in order to apply for participation in a measure or to upload participation-related documents (for example declaration form). The prerequisite for this is that the customer has given their consent to this in their account.
