Teaser	Applying for a patent is an effective way of protecting your invention against unauthorised use by third parties.
Volltext	<p>Application for the grant of a patent pursuant to sections 34 et seq. Patentgesetz (PatG)</p> <p>Applying for a patent is an effective way of protecting your invention against unauthorised use by third parties.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Application for the grant of a patent • Designation of the inventor • Disclosure of the patent (description of the invention, patent claims, drawings) • abstract • Models and samples, if applicable <p>Tip: Detailed information on how to prepare the documents can be found in a leaflet which can be downloaded from the DPMA Internet portal.</p>
Voraussetzungen	<ul style="list-style-type: none"> • Novelty: The invention must not belong to the state of the art. • Inventive step: A person skilled in the relevant technical field must not readily come up with the corresponding solution. • Industrial applicability
Kosten	Registration and research fee

Modul

Sachverhalt

- for written registration: EUR 60.00
- for electronic filing: EUR 50.00
- Search request fee (if applicable): EUR 250.00
- Filing fee: Payment within three months of filing the application

Attention!

- Fee for search request (if filed): Payment within three months

Fee for the Request for Examination

- with search request: EUR 150.00
- without search request: EUR 350.00

Annual Fees

- EUR 70.00 for the third year, rising to
- EUR 1,940 for the 20th year

Note: If you as the patent holder agree to allow anyone to use your invention for a certain fee (declaration of willingness to take a licence), the annual fees payable are halved.

Tip:

Verfahrensablauf

Anyone can apply for intellectual property rights at the Deutsches Patent- und Markenamt (DPMA) in Munich. In Saxony, the patent information centres in Chemnitz and Dresden also accept patent applications and forward them to the DPMA.

In principle, it is up to you whether you seek the help of a patent attorney or not. In many cases, however, it is advisable to consult an attorney. Only if you are not resident in the Federal Republic of Germany do you need to be represented by a lawyer.

Tip:

Application

- You can obtain the application form from the

Modul

Sachverhalt

above-mentioned offices or on the Internet.

- It is also possible to apply for a patent online. Please visit the website of the Deutsches Patent- und Markenamt (DPMA) to find out about the requirements.
- Submit the completed application with the required documents to the above-mentioned offices in paper form (three copies) or electronically and pay the application fee.
- You will receive a receipt with the file number and the filing date of the invention.

Request for Search and Examination

- At the same time as filing the application, you can request a search and examination of the patent to ensure that all the requirements for protection are met.
- To do this, tick the relevant boxes on the application form.

As part of the search, the public documents to be considered for assessing the patentability of your invention are identified. The competent examination centre carries out the search without any guarantee of completeness.

Note: You can request both the search and the examination at a later date. It is not mandatory to file a search request.

Attention!

Examination of Obviousness

The Deutsches Patent- und Markenamt (DPMA) examines whether the formal requirements are met and whether there are obvious grounds for refusal. For example, there may be a lack of industrial applicability or the invention may not be a (unitary) invention.

If necessary, you will be asked to respond within a certain period of time.

Bearbeitungsdauer

Modul	Sachverhalt
Frist	Publication • Publication of the patent application (publication document) - irrespective of the status of the proceedings - no later than 18 months after the filing date From the date of publication, anyone can inspect the files and, under certain conditions, you can claim compensation if your invention is used unlawfully. Period of Protection • maximum 20 years (from the third year, protection is maintained for an annual fee)
