Handlungsgrundlage	• § 18 Tierzuchtgesetz (TierZG) – Besamungsstationen, Embryo-Entnahme- oder -Erzeugungseinheiten • Sächsisches Kostenverzeichnis (SächsKVZ), lfd. Nr. 92 – Tierzuchtrecht
Teaser	If you wish to operate a national insemination centre, embryo collection or production unit for cattle, pigs, sheep, goats or equidae, you require a licence from the competent authority in accordance with the Animal Breeding Act (Tierzuchtgesetz – TierZG).
Volltext	Authorisation as an insemination station or embryo transfer centre in accordance with Section 18 of the Animal Breeding Act (TierZG) If you wish to operate a national insemination centre, embryo collection or production unit for cattle, pigs, sheep, goats or equidae, you require a licence from the competent authority in accordance with the Animal Breeding Act (Tierzuchtgesetz – TierZG). Note: The licence is limited to Germany. For an EU-wide application, please contact the veterinary authorities.
Erforderliche Unterlagen	• the name, address and legal form of the operator • the addresses of all parts of the establishment and an indication of their function for the collection, treatment, storage and delivery of semen or ova and embryos • the indication of the material field of activity (animal species and material: semen, embryos, ova) • Proof: contracts with the supervising veterinarian including licence to practise, hygiene concepts, site plans, contracts for the use of space

Modul	Sachverhalt
Voraussetzungen	• Management of the facility by a veterinarian or performance of veterinary and technical tasks by a contractually bound veterinarian • the necessary personnel and all facilities required for the collection, treatment, storage and delivery of semen or ova and embryos • Compliance with animal health requirements for maintaining the health of livestock and carrying out animal health examinations of male breeding animals at an insemination centre
Kosten	EUR 350.00 - EUR 1,365.00 (depending on expenses)
Verfahrensablauf	• For authorisation as an insemination centre or embryo transfer facility, you must submit an (informal) written application to the responsible department. • In addition to checking the documents submitted, an on-site inspection will also take place. • If all requirements are met, the responsible department will send you the licence and invoice. • You can also apply for changes and extensions in writing to the responsible department.
Bearbeitungsdauer	three to four months
Frist	Validity: ten years (after the end of the year in which the licence was issued)
weiterführende Informationen	
Hinweise	• Anyone operating a semen collection centre must immediately keep records of the collection, treatment, storage and release of semen in accordance with a statutory order pursuant to Section 18 paragraph 1 no. 4 • Operators of an embryo collection team or other semen collection centre, a semen storage centre or other embryo collection team must immediately keep records of the delivery of the respective products
