and the safe storage of weapons and ammunition.

In principle, you always need a permit to acquire and possess weapons and ammunition. In general, firearms are objects that are intended for attack or defense, signaling, hunting, distance injection, marking, sport or play and in which projectiles are propelled through a barrel or in which solid bodies are fired in a targeted manner, the propelling energy of which is provided by muscle power or another energy source and can be stored or held by a locking device (e.g. crossbows, arrow launchers). A distinction is made between firearms that require a permit and those that do not. You need a small firearms license to be allowed to carry unlicensed firearms. All weapons that are not alarm, irritant and signal weapons with a PTB mark in the circle are classified as weapons requiring a permit. You will find a detailed list of weapons for which you require a weapons possession card in Annex 2 of the Weapons Act. It is recommended that you inform yourself in detail about the regulations of the Weapons Act before submitting your application.
