Teaser	If you are between 16 and 18 years old and would like to hunt, you need a valid youth hunting license.
Volltext	<p>Issuing, reissuing and re-issuing</p> <p>A youth hunting license can be issued to persons between the ages of 16 and 18 and entitles them to hunt in the company of an experienced person who has been appointed in writing by their legal guardian. The youth hunting license is specifically designed to give young people the opportunity to gain experience in hunting. Social hunts are not permitted with a youth hunting license. Comprehensive regulations and safety precautions apply to ensure safety during the hunt.</p> <p>The same age requirements and accompanying regulations are required for the new issue of a youth hunting license as for the first issue. If the youth hunting license has previously been revoked for reasons of non-compliance with regulations, a reassessment of suitability and reliability must be carried out. If there are any changes in the law, the existing permit must be amended.</p> <p>The reissue of a youth hunting license is based on an assessment of personal qualifications and previous hunting experience. Additional certificates of participation in further education or training courses may have to be obtained before the license is reissued. The competent hunting authority reserves the right to</p>

re-examine the fulfillment of all statutory criteria before reissuing the youth hunting license.

Daily and annual hunting license

The youth hunting license is limited in time and can be applied for daily or annual periods, depending on individual hunting needs and residence regulations. The daily hunting license is valid for 14 consecutive days and can be extended twice during the hunting year.

Amendment

An amendment to the youth hunting license may be necessary if the accompanying person changes or additional safety precautions have to be taken. If the legal landscape changes or the conditions for the escort are redefined, the youth hunting license must be updated accordingly. The application for a change should be made in good time to the relevant hunting authority and all necessary forms and accompanying documents must be submitted.

Revocation/withdrawal

A youth hunting license is revoked or withdrawn if the accompanying conditions in accordance with the guidelines are no longer fulfilled or if there are safety concerns. This may also be the case if the young person violates the hunting laws or the insurance is no longer valid. The competent hunting authority checks all relevant documents and reserves the right to take measures to ensure legal compliance.

Entry of a hunting area in the youth hunting license

In the case of a youth hunting license, the entry of the authorized hunting area is required in order to clearly define where hunting may be carried out in company. This entry ensures that the hunting activities are carried out in accordance with the regulations and in the correct company. The accompanying person must also confirm the area and the other general conditions so that legally secure hunting practice can take place.

Notes

You will only receive the hunting license for the period for which you have taken out the insurance. The insurance company can also send the proof directly to the competent authority electronically. The hunting license alone does not entitle you to actually hunt. In Germany, the right to hunt belongs to landowners, who (if they own sufficient land and hold a valid hunting license) may hunt on their own land or must join local hunting associations of landowners, who then usually lease the right to hunt to hunters. The hunting license must be carried when hunting Proof of special shooting skills must be requested from the hunting management for participation in driven hunts The hunting license is valid throughout Germany. The hunting tax is earmarked for:
