Teaser	Do you want to operate an X-ray system in technical radiography for coarse structure analysis in materials testing or make changes to the operation? Then you must notify the competent authority for radiation protection and apply for a permit.
Volltext	<p>In order to be able to operate an X-ray system in technical radiography for coarse structure analysis, you must notify the competent authority for radiation protection and apply for a permit.</p> <p>You must also inform the authority if you wish to make significant changes to an existing and approved X-ray system. In this case, you will need a new permit.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> <li>• Main application for approval the operation of an X-ray facility or the modification of an X-ray facility</li> <li>• Documents required to check the licensing requirements, e.g. plans, drawings or descriptions</li> <li>• Information on the number of radiation protection officers and their authorizations</li> <li>• Information on the equipment and measures taken</li> </ul>

## Modul

## Sachverhalt

- to comply with the protection regulations
- information on the reliability and radiation protection expertise of the radiation protection officer and the radiation protection officers
  - radiation protection instructions, if required

This means in particular

- Proof of expertise and, if necessary, updates for the radiation protection officer if no radiation protection officer is available
- Proof of expertise and, if necessary, updates for the radiation protection officer
- Certificate and test report from the expert on the radiation protection test
- Floor plan sketch of the X-ray room and adjacent rooms
- Type approval or CE certificate of conformity (optional)

## Voraussetzungen

- There are no concerns about the reliability of the applicant or the radiation protection officer.
- The radiation protection officer must have the necessary expertise in radiation protection.
- You need a sufficient number of radiation protection officers and they must have the necessary authorizations for their tasks.
- You need sufficient personnel to carry out the work safely.
- They must have sufficient equipment and take appropriate measures to comply with state-of-the-art protection regulations.
- This is a justified type of activity and does not conflict with any other public law regulations.

## Kosten

Verwaltungsgebühr: 100€ - 10.000€

## Verfahrensablauf

- You send the application for approval for the operation or modification of an X-ray device to the competent authority.
- Upon receipt of the application and the complete documentation, the competent authority will check whether the requirements for approval have been met.
- After a final assessment by the competent authority, you will receive the decision in the form of a

Modul	Sachverhalt
	notification.
Bearbeitungsdauer	2 - 4 Woche(n) 2 - 4 Woche(n)
Frist	You must apply for approval before you put the X-ray equipment into operation. You may only put the X-ray equipment into operation once you have received written approval.
