Teaser	The excavation certificate gives the construction company permission to carry out the construction project on the land concerned.
Volltext	<p>With the excavation certificate, the construction company receives the approval of the road authority to carry out the construction project on its land. The road owner registers the construction project and thus has the opportunity to check the proper restoration during or after completion of the construction work and after the end of the warranty period.</p> <p>Every excavation changes the condition and quality of the traffic area. The coordination of excavations is important in order to minimize subsequent costs for the general public and the client of the excavation must be known in order to establish warranty claims.</p> <p>More legal certainty is created for all parties involved, as the excavation site is documented, from which the rights and obligations of the parties involved can be derived.</p> <p>Excavations in public traffic areas are therefore</p>

	<p>generally subject to approval.</p> <p>The excavation certificate must be kept ready by the company carrying out the work at the work site for inspection purposes.</p> <p>Exception: laying or changing telecommunications lines. According to § 68 TKG, no excavation permit is required for this, only the consent of the road construction authority (from 01.12.2021: § 127 TKG). Operating and maintenance work is not subject to approval, as this work is covered by the approval granted for the installation.</p> <p>Note:</p> <p>Corresponding usage agreements may also have to be concluded when laying lines on roads.</p>
<b>Erforderliche Unterlagen</b>	<p>The local civil engineering office requires an application for approval of an excavation and, if necessary, a section of the site plan.</p> <p>The LBV-SH requires different documents depending on where the excavation is to be carried out. It is therefore recommended that you contact the LBV-SH in this regard.</p>
<b>Voraussetzungen</b>	
<b>Kosten</b>	<p>None in principle.</p> <p>The use of traffic routes for telecommunications lines that serve public purposes is free of charge.</p> <p>In accordance with § 223 Para. 4 TKG, only fees and expenses covering administrative costs may be charged for the issuing of approval notices.</p>
<b>Verfahrensablauf</b>	
<b>Bearbeitungsdauer</b>	
<b>Frist</b>	<p>The excavation certificate must be applied for by the company carrying out the excavation at least 14 days</p>

Modul	Sachverhalt
	before the start of the excavation at the local civil engineering office or at another competent authority (e.g. the LBV-SH). In the case of applications for approval in accordance with § 127 TKG, the deadlines contained therein must be observed.
