| Volltext                   | In Germany, a water abstraction charge can be levied for the abstraction and discharge of water from surface waters, as well as the abstraction, extraction, underground conduction and discharge of groundwater. The individual federal states decide whether and to what extent a water abstraction charge is levied.                                                                                                                                                                                                                                                                                                                                                                              |
| Erforderliche Unterlagen   | There is no uniform regulation in the federal states in which the water abstraction charge is levied.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Voraussetzungen            | Water abstraction charges are payable by anyone who withdraws or discharges water from a surface water body or withdraws, extracts, discharges or discharges groundwater.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Kosten                     | The amount of the charge is generally based on the medium from which the water was taken (groundwater or surface water), the amount of water and the rate of charge to be applied in each case.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
