Sachverhalt

organisms against which the pest control is to be carried out, and

- the result of the examination as to whether the control objective can also be achieved with less hazardous pesticides.

Adequate staffing is deemed to exist if suitable competent persons are employed. Suitable persons are those who

- is at least 18 years old,
- possess the reliability required for handling pest control and
- can prove by means of a certificate from a doctor in accordance with Section 7 (1) of the Ordinance on Occupational Health Care that there are no indications that he/she is physically or mentally unfit to handle pesticides; the certificate must not be older than five years.

Competent persons are those who

- undergoes regular further training and
- has passed the examination in accordance with the Ordinance on Vocational Training for Pest Control Technicians of July 15, 2004 (BGBl. I p. 1638) or
- has passed the examination in accordance with the ordinance on the examination for the recognized qualification "Certified Pest Controller" of 19 March 1984 (BGBl. I p. 468) or
- has passed the examination to become an assistant or master pest controller under the law no longer in force in the old federal states or under the law of the former GDR.
- Anyone who has passed an examination or successfully completed training that has been recognized by the competent authority as equivalent to the aforementioned examinations is also deemed to be competent. If the intended pest control is limited to certain areas of application, anyone who has passed an examination or successfully completed training that has been recognized by the competent authority as suitable for these activities shall also be deemed competent.
