hazardous waste per year, you can participate in the collective waste disposal certificate procedure instead. In this case, it is not the waste-generating company that provides proof of disposal, but the company that collects the waste.

The competent authority must generally also confirm the permissibility of the disposal prior to the start of the disposal in the collective waste approval procedure.

The obligation to confirm the collective proof of disposal does not apply in the so-called privileged procedure. This applies to the following companies:

- Disposal facilities that are certified as specialised waste management companies or
- Disposal facilities that belong to a company entered in the EMAS register or
- Waste management facilities that are exempt from the confirmation obligation upon application by the competent authority.

In the privileged procedure, disposal can begin immediately after the collective waste management certificate has been sent to the competent authority.

Erforderliche Unterlagen

In electronic form:

- Cover sheet (DEN)
 - Responsible declaration (VE) of the waste-generating company
 - If applicable, including declaration analysis (DA)
- Declaration of acceptance (AE) of the company disposing of the waste

Voraussetzungen

- Software with which the verification documents can be created, processed and signed in electronic form and exchanged with other companies and the authorities. A personal signature card and a card reader are also required for the qualified signature of the forms.
- The waste authorisation numbers of the company

Hinweise	<p>In Baden-Württemberg, hazardous waste for disposal must first be offered to the SAA hazardous waste agency (obligation to offer). This regulation ensures that the capacities of the Billigheim hazardous waste landfill are utilised by waste producers and owners from Baden-Württemberg. This landfill is provided by the state for the disposal of hazardous waste.</p>

Sachverhalt

However, they are not subject to the obligation to deliver:

- Small producers with no more than 2,000 kg of hazardous waste in total per year
- Producers who hand over their waste to the collector as part of a collective disposal programme. In both cases, the disposer or collector must be subject to the obligation to deliver.
- Waste producers who dispose of waste in their own facilities in Baden-Württemberg that were already in operation on 1 January 1996.
