Teaser	If you wish to carry out fumigation activities with biocidal products or plant protection products, you must notify the competent authority.
Volltext	If you wish to carry out fumigation activities with biocidal products or plant protection products, you must notify the competent authority. Anyone wishing to carry out fumigation with fumigants on a commercial basis or independently as part of other economic activities outside a fixed facility may also require a permit from the competent authority. The employer must also notify the competent authority in advance of each fumigation activity. In addition, a collective notification may be approved if fumigation is repeated regularly and the conditions described in the notification remain unchanged.
Erforderliche Unterlagen	The following information is required for the notification: • Date of the activities • planned work steps • expected start and expected end of the activities • if necessary, dates of leak tests and release • Name and authorisation or registration number of the biocidal product or plant protection product and the quantity used • Name(s) of the person(s) responsible • Copies of the certificates of competence

Modul	Sachverhalt
	• Site plan of the location or the object to be fumigated
Voraussetzungen	Fumigation may only be carried out if its use is not expected to have any harmful effects on the health of humans, non-target organisms or the environment in individual cases.
Kosten	none
Verfahrensablauf	After you have notified a fumigation activity in advance, the competent authority will check your notification and request additional documents if necessary.
Bearbeitungsdauer	
Frist	One week before the planned fumigation activity. An exception applies to fumigation activities on ships and in containers in harbours, for which the application must be submitted 24 hours before the start of the activity.
