Teaser	If you require information on standard land values, for example in advance of a property purchase, building project or for property tax purposes, you can view the standard land values online or obtain written information and extracts.
Volltext	The standard land value (Section 196 (1) of the German Building Code - BauGB) is the average value of the land for a majority of properties within a defined area (standard land value zone) which are largely identical in terms of their property characteristics, in particular the type and extent of usability, and for which the general value conditions are essentially the same. The standard land values in Mecklenburg-Vorpommern are determined by the expert committees for land values. You can request information verbally or in writing. Written information is subject to a charge. A quick and free overview of the standard land values can be obtained via the internet portals of the expert committees, GeoPortal.MV or the German Standard Land Value Information System (BORIS-D).
Erforderliche Unterlagen	none

Modul	Sachverhalt
Voraussetzungen	none
Kosten	Simple verbal information: • No costs Independent inspection of the standard land value map, for example in the German Standard Land Value Information System (BORIS-D): • No costs Written information: • Basic fee per information request: EUR 30.00 • Plus for each standard land value: EUR 4.00 • Standardized information from the standard land value map, for example for building plots: Per property: EUR 10.00 • Provision of official extracts from the standard land value map for the area of an expert committee: from EUR 34.00 to EUR 250.00
Verfahrensablauf	Apply in writing to the relevant office for information from the standard land value map for your property. You will then receive this by post. You will also receive a notice of costs.
Bearbeitungsdauer	• Written information or extracts: 10-14 days • Independent preparation via the online service: no processing time. You will receive the requested information immediately.
Frist	none
