Teaser	In the Mecklenburg-Vorpommern Soil Information System (FISBO M-V) you can view information on the soils of Mecklenburg-Vorpommern.
Volltext	The Geological Service MV provides data on the soil in M-V. You can independently query how the soil is structured throughout the state or at a specific location. This data is stored digitally in databases such as • the profile database • the laboratory database • the peatland site catalog and as area data in geographic information systems

Modul	Sachverhalt
	such as • the soil overview map 1:200,000 (BÜK200) • the concept soil map 1:25,000 (KBK25) are available. You receive thematic information on the distribution of soils, on certain soil parameters such as field capacity or rooting depth. You will also receive information on soil functions. Thematic evaluations contain, for example, statements on the risk of erosion.
Erforderliche Unterlagen	• none
Voraussetzungen	• none
Kosten	• The data provided online is free of charge • Fees may apply if data is requested in addition to the data provided online Billing is then based on the actual time spent per half hour or part thereof, depending on the pay grade of the civil servant/employee processing the request: Cost range: EUR 29.25 - EUR 42.25 per half hour or part thereof • For the forwarding of existing data without processing costs, the costs are charged in accordance with the Environmental Information Costs Ordinance (UIKstVO M V) Cost range: EUR 0 - EUR 500
Verfahrensablauf	The geo web services (WMS/WFS) provided for the various data can be visualized and evaluated using GI systems (e.g. ArcGIS; QGIS). Alternatively, this data can also be displayed in the map portal of the state of MV.
Bearbeitungsdauer	
Frist	• none
weiterführende Informationen	
Hinweise	
Rechtsbehelf	
Kurztext	• Information on soil nationwide or locally • Data is available digitally in databases

Modul	Sachverhalt
	• Information on the distribution of soils Soil parameters such as field capacity or rooting depth Thematic evaluations, e.g. with statements on the risk of erosion • Information/data is provided by the Geological Service of the State Office for the Environment, Nature Conservation and Geology M-V
Ansprechpunkt	
Zuständige Stelle	State Office for the Environment, Nature Conservation and Geology M-V Geological Service
