Teaser	If you are working or being employed in the food sector for the first time, you will need a certificate from the public health department confirming that you have been instructed in infection protection.
Volltext	Do you produce food, handle it or place it on the market? Do you come into direct or indirect contact with these foods (via utensils such as plates or cutlery)? Would you like to work or become active in kitchens in restaurants, canteens and cafés or in communal catering facilities? Then you need a certificate from the public health department that is no more than 3 months old. This proves that you have successfully completed an instruction course on infection protection measures. The aim of the instruction is to enable you to recognize your own symptoms of infectious diseases or those of your employees at an early stage. You should also be able to prevent the spread and contamination of food and assess when you should no longer carry out your work if you have certain symptoms. The certificate is issued either by the public health department or by a doctor appointed by the public health department.

Hinweise	A specific form of instruction is not prescribed by the IfSG. After the instruction, it must be declared in text form that there are no known facts for a prohibition of activity. If there are indications that there are reasons for an impediment to working in the food sector, the certificate may only be issued if a medical certificate proves that the relevant impediment no longer exists.
Rechtsbehelf	
Kurztext	• for first-time commercial activities or employment with direct or indirect food contact (production, treatment and sale), instruction must be provided by the public health department

Modul	Sachverhalt
	• Instruction takes place and a certificate is issued • Aim of the instruction: • to recognize and avoid infectious diseases, • the prevention of food contamination • Knowing when an activity may no longer be carried out in the specified areas • Responsible: local health authority or doctor appointed by the health authority
