Sachverhalt

- Animal shelters run by local authorities are excluded from funding.

How is funding provided?

The grant is awarded by way of project funding as partial funding in the form of a non-repayable grant of up to 90 percent. The grant is set at a maximum amount with the approval notice. The maximum possible grant of 90 percent of the eligible expenditure is awarded to recipients who exclusively fulfill the animal welfare purpose. If a grant recipient generates income from economic activities that do not serve the purpose of animal welfare, the grant is reduced by the percentage of this income in relation to the total income.

In addition to own funds, non-cash personal contributions, project-related donations in kind, public grants and third-party grants can also be recognized as the recipient's own share of the funding.
